April 24, 2020, Chitranjan was Deepak's client

I would highly recommend Edu4sure to anyone who are looking to learn new skills / upgrade skills in different areas, including Power BI/ Tableau/ Intermediate-advanced excel. I am glad I was able to connect with Mr. Deepak. They have some excellent trainers and at the end of training will make sure you understand everything and are ready to put those skills to work.

Great interactive session organised by edu4sure and team on Power BI. Very insightful for students as well as the faculty members.

Sneha K S · 2nd

Assistant Systems Analyst at Tata Consultancy Services
December 5, 2021, Sneha was Bharti's client

Hi mam,

Myself Sneha, I took my self paced Power BI + DAX course via edu4sure. It was really a good learning, whole course was paced in a well structured manner rather than covering up unnecessary topics. Since, i got a very good sum up from the course which paved me confidence to learn more in deep on my own using the knowledge i gained.

I got a chance to explore a lot as a student. Hope more students can get benefited from this course.

Manish Kumar Sah PMP® CSM® LSSBB® · 2nd

The most valuable form of knowledge is practical exposure with realistic Business cases and Scenarios and that's what I liked the most being a learner on Power BI training. The content is very comprehensive & updated. Thank you & Keep up your great work!!!

"I was particularly impressed by bharti ma'am ability to handle even the doubt clearly —effortlessly. That skill often takes years to develop , but it seemed to come perfectly naturally to her. She has a good knowledge about these analytics tools.so if you want to learn then learn from the best. "

Manisha Sharma

I got an opportunity to learn the basics of Power BI and DAX with Bharti. She is very enthusiastic and keen on teaching the subject in very interesting and engaging ways. She is very hard working in explaining the subject and will be always ready to go an extra mile in solving the doubts and queries. I wish her all the very best in pursuing her future endeavors.

Hi, actually i am new on PowerBi with zero idea but after taken my 1st session i could have say that now i am not new on Power BI. Its all because of proper session with clarity and attended all the query with positive way and ever after the session i have got all the support over phone & whatsapp.

Hi Bharti :)

I am grateful to Edu4Sure for allowing me to make the proper decision in enrolling in the Power BI course. And I also thank Edu4Sure for having you as a professional faculty member, and so far the journey of power Bi has been fruitful and, most importantly, highly interactive; 5 hours of journey never seemed like I was on a roller coaster, as I had imagined. You have not only given your knowledge, but you have also imprinted it on my mind. Your session has exceeded my expectations when compared to all of YouTube channels, which I can happily recommend. Started to have a 360-degree view of business in real-time. Thanks Bharti.

I am all grateful to Bharti for the detailed training on Power BI and DAX. She was patient enough to teach the concepts in a very simplified manner and made learning more fun. I am happy to recommend her and will also motivate my colleagues and my larger team to take up the well curated trainings in Edu4sure.

Believe me or not, never got someone to teach or mentor me this way like you did and rest i wrote earlier as well.

Would like to repeat it, you are an asset for the institute as you teach so well and enlightened this way and guided so well that words fall short! ✨

Blessed & thankful to have a teacher to guide or mentor this way like you do. ✨

Gratitude & always your thankful. ✨

I booked a trainer for Soft Skills. I found it expensive initially but later I found it worth investing time and money. The trainer brought something great in Soft Skills, especially Written Communication. The activities were really useful. It took time but training was justified.

Positive: Communication, Professionalism, Quality, Value

The HR Analytics course from Edu4Sure was an eye opener. I had heard a lot about and read a lot of case studies which explained what HR Analytics is and how companies are implementing it but I had no idea how it is actually done in real life. This course taught me a lot about the domain and their choice of analytics platform, Power BI and it did so without assuming any prior knowledge on my part. It is simple, broken down into short videos and folders and was very comprehensive. The instructor knew what she was talking about and provided great insights into the data. They encouraged practical learning by providing the same database as from the video. Overall, really loved the course. Its a great addition to my CV.

If you want to save a lot of your time and hone your skills faster, book the trainer from this company. It will really help you. I did not have any financial constraint and took 1 to 1 personal training sessions in Excel. I found it amazing. I can work on any problem in excel today. I am learning Dashboard now.

No Doubt!

I suppose the right person to answer this as I did 3 courses from there.

1. Six Sigma Green Belt
2. Power BI & DAX
3. Advanced Excel

First I took an Excel course and found the content quite apt.

No unnecessary stuff, very good practice sheets, clear explanation.

Then I opted for Power BI and DAX. DAX was more in detail and was solving real business statements. The trainer was quite good at Explanation. For Power BI & DAX, I took 1 to 1 Training. I am able to make a dashboard and analyze any data now.
